

## Y-12ers Mabel Tyer And T. A. Williams Are On European Tour; Itinerary Includes London, Paris, Venice, Rome And Switzerland

"INNOCENTS ABROAD" might be a good title for this picture of Y-12ers T. W. Williams, left; and Mabel Tyer, right; now on a Friendship Tour of Europe. In the center is Miss Ruth Cox, Oak Ridge National Laboratory employee in the Y-12 Plant Area, making a similar tour. They are looking over a map of the continent they are now visiting.

### Months Of Planning Made For Big Journey

A vacation trip in Europe—longed for by many—is being enjoyed these days by two Y-12ers. After many months of planning, Mabel Tyer, secretary to Development Division Superintendent W. K. Whitson, Jr.; and T. W. Williams, of the Timekeeping Department; took off last Saturday on their interesting "Friendship Tour" journey. Miss Ruth Cox, an Oak Ridge National Laboratory employee in the Analytical Chemistry Division, located in the Y-12 Plant Area, also will be making the Friendship Tour, but left a few days later than did the Y-12ers.

#### Flew Across Atlantic

All a-twitter with anticipation over the trip, the Y-12ers left Knoxville by American Airlines last Saturday morning and after a brief stop in New York City departed by TWA airliner late that same afternoon for the hop across the Atlantic. A short stop was scheduled for London before the first stop on the European continent was made at Amsterdam, Holland.

Miss Tyer and Williams plan to take their schedule mostly as they find it and thoroughly enjoy themselves. About the only definite activity planned by either was by Williams, who will take a day or so while in Italy to visit his aunt—his father's sister—in Naples. Williams also hopes to go to the Isle of Capri.

"Thanks" In Three Languages  
As far as advanced planning was concerned, Miss Tyer says she has learned to say "Thank you" in three languages. She also hopes that her French pronunciation of "tres bien" (very good in English) will not be such as to have waiters bring her three beers. She also is hopeful of being able to persuade hotel attendants to serve her plenty of hot water in the mornings with which to make instant coffee. Otherwise, she intends to "see everything I can, as long as my feet hold out."

Both Y-12ers announced their intention of dropping coins into the noted wishing well at Rome, Italy—and both also expressed the hope of being able to accomplish in Switzerland what members of an official Y-12 party were unable to do while attending the Geneva Conference on Peaceful Uses of the Atom.

#### Two Objectives Are Cited

Those two goals will be to shoot an Alp and learn how to yodel. Concerning the wear and tear

Robert C. Olson

## Robert C. Olson Is Transferred To Colorado Post

### Technical Division Superintendent Came To Y-12 Plant In 1956

With a host of Y-12 friends wishing him the best of luck in his new assignment, Robert C. Olson, Superintendent of the Technical Division, left the Y-12 Plant last Friday to join the Union Carbide Nuclear Company operations in Grand Junction, Col. There, on the Colorado Plateau, where UCNC conducts its uranium mining and milling activities, Olson will be doing engineering and development work for the Company.

#### Succeeded Lew Twichell

Bob Olson came to the Y-12 Plant on October 1, 1956, from the Oak Ridge Gaseous Diffusion Plant, where he had been a department head in the Plant Engineering Division. In coming to Y-12, he succeeded Lewis P. Twichell, who was transferred to the New York office of Union Carbide Corporation to become connected with the then newly formed nuclear development undertaking of UCC.

Close associates of Olson with W. K. Whitson, Jr., Superintendent of the Development Division, as host, tendered Olson a farewell dinner party last Thursday night at the Alexander Hotel in Oak Ridge. He was paid many compliments for his efficient work done during his tenure as a Y-21er. He also was given a number of gifts and a certificate of appreciation from his friends.

#### Has Held Several Positions

Since coming to Y-12, Olson has held posts of chief development engineer of the Development Division, later was Development Division Superintendent. He became Superintendent of the Technical Division on April 1 of this year.

Olson and his wife, the former Miss Mary Reed whom he married in Chicago in 1944, planned to leave by automobile for Colorado on Tuesday of this week. They will pick up their two young sons, David, 14; and John, 12; in Chicago, where they have been visiting.

#### Graduated From Illinois

The little town of Capron, Ill., with a population of around 500, was the birthplace of the former Y-12er on August 25, 1918. He attended grade and high school in his home town, then went on to the University of Illinois, where he graduated in 1939.

After spending a few years with

## UCC Gives ORINS \$5,000 In Grant

### Fund Is Contributed Toward New Building

A grant of \$5,000 to be used toward the construction of the new \$213,232 central administration building for the Oak Ridge Institute of Nuclear Studies was made recently by the Union Carbide Corporation. The presentation was made by Clark E. Center, vice president of Union Carbide Nuclear Company; to Dr. W. G. Pollard, executive director of ORINS.

The Carbide contribution to the ORINS building fund brings to \$51,000 the institute's building donations from outside sources. Grants previously had been received from the Lilly Endowment, Inc., the Benwood Foundation and the Hamilton National Bank of Knoxville. The new ORINS building will be the first of the organization's new permanent structures that is not owned by the government.

"Union Carbide Corporation has long been interested in the program of the Oak Ridge Institute of Nuclear Studies," said Mr. Center in presenting the UCC grant, "and has been happy to assist in its accomplishments over the years. We hope that the construction of this building will enable ORINS to continue making substantial contributions to the welfare of higher education throughout the South, and will further cement the close association that exists between Union Carbide Nuclear Company and the Oak Ridge Institute of Nuclear Studies."

In accepting the grant, Dr. Pollard said:

"It is especially gratifying to all of us in the Oak Ridge Institute of Nuclear Studies to have this grant from Union Carbide Corporation toward construction of our building. The Institute has from

## Miami Researchers To Talk At Physics Seminar Meet

Dr. B. Kursunoglu, a research participant from the University of Miami, Fla., will speak at the physics seminar of the Physics Division of the Oak Ridge National Laboratory on Friday afternoon of this week, July 24. The meeting will be at 3:15 o'clock in the auditorium of Bldg. 4500, ORNL. The seminar discussion subject will be "Fields, Particles and Quantum Physics." Y-12ers interested in the subject are invited to attend.

### UCC SAVINGS PLAN SETS RECORD FOR PAYMENTS

The distribution of Union Carbide Corporation General Savings Fund of the UCC Savings Plan this year set a new record. Almost \$61,000,000 was distributed throughout the Corporation Divisions to 60,042 employees under the provisions of the Corporation's short-term savings plan. Of this amount \$45,776,760 was saved by the employees and \$14,973,708 was added by the Corporation. In the Y-12 Plant 4,462 employees drew \$4,824,728 while in the three Oak Ridge facilities of Union Carbide Nuclear Company \$13,184,456 was distributed to 11,699 employees.

## UCNC People Active In Kingston Affairs

### Two Y-12ers Among Five On City Council

Another outstanding example of the participation of Union Carbide Nuclear Company employees in civic affairs of the communities in which they live exists in the little city of Kingston, in which many UCNC employees in Oak Ridge have made their homes. In that city the newly elected city council, named in June, is composed of seven members, five of whom are UCNC employees in Oak Ridge, with two of them being Y-12ers and three being employed at the Oak Ridge Gaseous Diffusion Plant.

The Y-12ers on the Kingston City Council are James B. Sykes, of the Plant Records Department; and Chester Fultz, Development Operations. Kingston mayor is W. L. Harwell, ORGDP, and the other two councilmen from that plant are Alton Byrd and W. B. Logan.

In addition to taking part in city affairs in Kingston, many other UCNC employees are active in other community activities.

In Oak Ridge there are many UCNC men and women taking part in various civic activities. On the city council of the new municipality of Oak Ridge there are three Y-12ers. A. K. Bissell, of SS Control, is mayor of the city and Harry C. Francke, Development Operations; and T. R. Livingston, General Machine Shop; are members of the city council.

NEWLY ELECTED OFFICIALS OF THE CITY OF KINGSTON include five Union Carbide Nuclear Company employees, two of whom are Y-12ers. From left are City Recorder Robert Crowder; City Councilman Chester Fultz, of the Y-12 Development Operations Department; Councilman James B. Sykes, Y-12 Plant Records Department; Mayor W. L. Harwell, Oak Ridge Gaseous Diffusion Plant; Councilman Alton Byrd, ORGDP; George Browder, Earl Loope and W. B. Logan, also of ORGDP.

### APPETIZING DISHES SET FOR SPECIAL LUNCHES

Appetizing dishes are to be offered on the 50-cent Special Lunches to be served at the Y-12 Cafeteria tomorrow, Thursday, July 23, and next Tuesday, July 28. Grilled bologna cups with hot potato salad will be offered tomorrow and on next Tuesday chicken chow mein with steamed rice and Chinese noodles will be the main dish. Each Special Lunch also includes one vegetable, choice of salad or dessert and rolls and butter.

Price Foster

## Y-12er's Son Wins Honorable Mention In Science Fields

Two highly prized national citations in science have been won by Price Foster, 19, son of B. B. Foster, of Mechanical Maintenance. They are honorable mention award in the Westinghouse Science Talent Search and also the Future Scientists of America Science Achievement Award for Students. Winners were determined on the contestant's science fair project.

Young Foster's project was "The Effects of Radiation on the Chick Embryo." This project was entered in the Oak Ridge High School Science Fair.

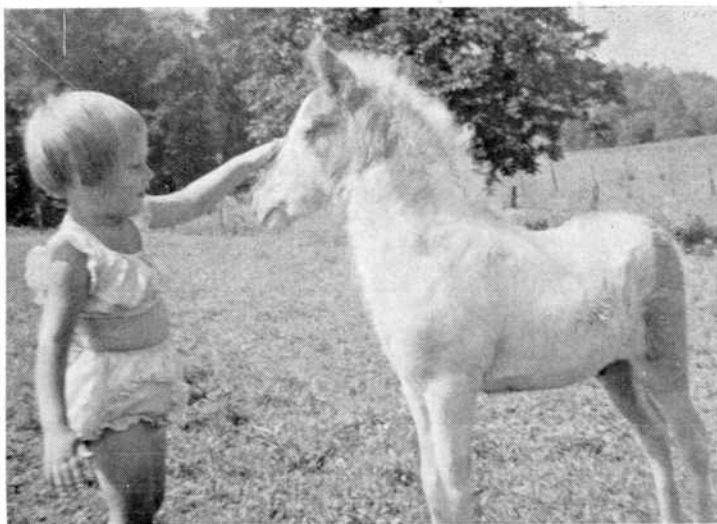

A member of the ORHS class of 1959, young Foster served as business manager of the school yearbook, one of the 11 major offices of the school student body. He was president of the Chemistry Club and member of the biology and Spanish clubs. As a member of the student council he served on the assembly committee. In addition he was a member of the Junior Key Committee and the Senior Steering Committee and was a member of the ORHS band for four years. He was acclaimed by his classmates as the "boy most likely to succeed."

Other awards earned include second place in the Elks' Lodge leadership award, a final place in the American Field Service and being among the upper two per cent in the National Merit Scholarship Qualifying test. This test was taken by 478,991 high school students during the year.

Young Foster will enter Duke University in the fall to major in biology.

If you want life to be a bed of roses you have to put in a lot of spade work.

DON'T BE BRANDED

GRANDCHILDREN AND PONIES ARE THE PET HOBBIES OF Lula Justice, of the Y-12 Mail Department and a long-time employee. At left above is Connie Holmberg, 3, one of the Y-12er's grandchildren and the daughter of Mrs. Reba Justice Holmberg, herself a former Y-12er, petting her one-month old pony. At right are Nancy, 3; and Douglas, 5, Holmberg. Nancy is mounted on the mother pony of the one with Connie and also of the horse pony being ridden by Douglas. The ponies were raised on the Justice farm near Oliver Springs.

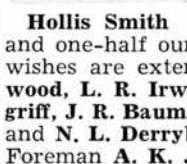

Back from that Daytona vacation—your Colyum Conductor announces that he has changed—temporarily—his title to Neptune. That's his only chance to fulfill the promise of stand-in Ralph Pearson, that a sea story would be forthcoming. Nope, the old CC's (or Neptune's) major pastime was a-sittin' and a-rockin' in recovering from and preparing for the jaunt across Georgia, which seems to lengthen itself 50 miles each year just to get motorists more "het up."

Now to catch up on proceedings—here's the yakkity-yak of the place—

### MAINTENANCE

Well, look who's here. It's the very youthful Hollis Dale Smith, son and pride and joy of his daddy, W. K. Smith, Electrical Maintenance. The youngster was born June 16 at Ft. Sanders Presbyterian Hospital, Knoxville and he weighed eight pounds, seven and one-half ounces. Get well wishes are extended A. L. Prestwood, L. R. Irwin, H. L. Vandergriff, J. R. Baumgarner, Jim Miller and N. L. Derryberry. General Foreman A. K. Johnson is mighty proud of that new white Thunderbird in which he is sporting around these days. A. R. Merrell is relaxing in the sun at Jacksonville Beach. M. R. Whaley is staying around home in Pigeon Forge with a couple of trips to see the Smokies. W. H. Pool is fishing and may take his family for a jaunt to LaGrange, Ga. L. F. Kennedy, Jr., is satisfied to stay right around Oak Ridge for his vacation.

Research Services sends rapid recovery wishes to its sick list roster—E. P. Canady, F. H. DeFord, L. Patrick, J. W. Mitts and J. T. Gallups—and also to B. C. Harrington, who underwent surgery recently. Tullahoma, Tenn., (home of the big wind) is the vacation hideaway of B. J. West. T. E. Walsh is spending a week in a cabin in the Smokies—says it ain't his'n so pals suspect he dispossessed a bear. J. L. Vassey is visiting Myrtle in South Carolina—that's a beach. R. S. Oswald loped up to Louisville, Ky. F. C. Massengill is over in Anderson, S. C. "Lieut. Col." C. G. King is doing some soldier work for Uncle Sam at Ft. Jackson, S. C. Among the fishermen are W. A. Fillers and D. B. Blackburn at Calvert's Lake near Smithville and M. L. Garri-

son trying out Watts Bar Lake. Just vacationing at home are P. R. Shultz, J. C. McBryar and T. E. Shaw.

The pinnacle of tough luck was suffered by H. C. Gardner, Mechanical Maintenance, who got to Florida on his vacation but had to return to Oak Ridge for medical attention—get well wishes are rushed to him. W. H. Miller and family are Daytona Beach delegates from the department. Vern Stanley is visiting relatives in Indiana and Ohio. Tom Verner will be found doing Army Reserve duty down in Georgia.

### FINANCE AND MATERIALS

A vacation down on the farm near Oliver Springs with her grandchildren and ponies (see picture at top of this page) is occupying Lula Justice.

Plant Records rolled out the red rug of welcome last week for Earl B. Parker to the Accountability Office. Dot Park is vacationing in Knoxville after she and her husband, Homer, General Machine Shop, attended the funeral of John G. Walpool, formerly of the TW Shop, July 12 in Nashville.

Congratulations are extended J. M. McMasters, Engineering Records, who recently became a grandpa when his son presented him with a six-pound grandson born in Athens, Ala. Wayne Silver is with the Army Reserve in training at a camp near Atlanta, Ga.

Points in Ohio and Detroit, Mich., are on the vacation itinerary of Pearl Lindsey, Reproduction, and her husband, Sam, General Machine Shop.

Meandering over to Myrtle Beach, S. C., for their vacation are A. E. Davis, Design and Composition, and family.

Welcomed to the Traffic Department is Betty Rose, transferred from Plant Records to replace Mildred Goosie, who will be leaving July 31.

### SHIFT SUPERINTENDENTS AND UTILITIES

Daytona Beach has drawn George Evans, of the SS Office. Ken Bernander is down in Mississippi.

The Smokies got R. E. Ballew, Utilities, for his vacation. K. H. "Pop-Up" Wright is reported by pals to be vacationing to mourn for the Yankees (they had just lost five to Boston) but by the time this appears the situation might be somewhat different.

### ENGINEERING

Mechanical Engineering has pulled up a couple of chairs for two new members of the cast—R. F. Greene, who resides with his wife and four-year-old daughter in Maryville; and Floyd Hip-

NIZE KITTY, NIZE BABY are shown in this picture of Pamela Gail West, 10 months old, the granddaughter and apple of his eye of W. Sweeten, Utilities. Pamela's kitten seems to be enjoying the little girl's company and attention.

shire, a summer student who is working for an engineering degree at the University of Tennessee. Sympathy is extended N. K. Newton, whose uncle died recently in Leeds, Ala. Tommy Swindell and the missus visited his mother in Asheville, N. C., over the last week end. Leo Hemphill is all rested up after vacationing in Oak Ridge. Steve Adamski is loafing around home in Oak Ridge this week. The Dick Wyricks are spending a week with three other Y-12 couples at Elinor Village on Daytona Beach. The MEs were sorry to say good-bye to Bob Lassiter, who left last Friday to take a new assignment at the Carbide plant in Paducah, Ky. Wilbur Allin was out with the flu last week. H. A. Pohto is back from Cleveland, Ohio, and suburbs where he took in the 20th anniversary reunion of his high school class—Herb was awarded a prize for having travelled the greatest distance to the gathering—a compass, so he can find his way back again from time to time. Henry Cunningham is getting a sample of what "baching" is like now that his wife is spending a week in Columbus, Ohio. Don't forget to water the flowers, let out the cat and bring in the milk, Henry!

### TECHNICAL

Radiation Safety reports that B. J. Youngblood and his wife, Pearl, Quality Control; are Daytona Beach visitors this week. G. R. "Whit" Whitaker is taking it easy at home in Powell. M. L. "Doc" Bailey was a West Virginia vacationer last week.

Mechanical Inspection folks, their families and guests enjoyed their annual picnic last Saturday at the Solway swimming pool. Bert Searles is vacationing at home in Clinton this week.

SS Control (and the Colyum) bids a regretful farewell to Lorraine White Engle, who for a long time has reported proceedings in that precinct. She is leaving to accompany her husband, Bill, ORNL, to Berlin, Germany, for a year's assignment and friends of both wish them the best of luck.

Sunshine soaking in Daytona Beach is being enjoyed by Sissy

## Y-12ers With 15, 10 Years Company Service

Congratulations to the following Y-12 employees who will complete 15 and 10 years of Company Service within the next few days.

### 15 YEARS

John R. Carriger, Electrical Maintenance, July 24.

Louis E. Litton, Guard, July 24.

Esker L. Bailey, Receiving, July 25.

Jesse D. Hopkins, Guard, July 26.

James W. Jackson, Chemical, July 27.

Webster Hughes, Buildings and Grounds, July 27.

John A. Bradshaw, Graphite Shop, July 27.

Gilbert E. Berney, Mechanical Maintenance, July 28.

Walter H. Hoose, SS Control, July 28.

Fesington C. Lowry, Safety and Protection Administration, July 28.

Agnes F. Johnson, Production Assay, July 28.

### 10 YEARS

William E. Belvin, Jr., SS Control, July 27.

## Rides Wanted, Offered

Ride wanted from 2410 Fairmount Boulevard, Knoxville, to West Portal, straight day. D. N. Sideris, plant phone 7-8487, home phone Knoxville 4-7964.

Want to join car pool from West Village, Oak Ridge, to Central or West Portal, straight day. H. A. Pohto, plant phone 7591, home phone Oak Ridge 5-1620.

Ride wanted or will join car pool from Cumberland Estates, Knox County near West Haven, to North or Central Portal, straight day. J. M. Kerr, plant phone 7162.

Ride wanted from Karns Community to North Portal, straight day. James Corum, plant phone 7-8285, home phone Knoxville 8-9865.

Ride wanted or will join car pool from 2904 Selma, Knoxville, to West Portal, straight day. H. J. Gilliam, plant phone 7-8622, home phone Knoxville 4-5728.

Riders wanted from Athens, Sweetwater, Loudon or Lenoir City to any portal except East, straight day. A. R. Shamblyn, plant phone 7-8667, home phone Athens 2065.

Haney, Production Analysis. Alta Curtis and family and folks selected Atlanta, Ga., for their vacation site. Jim Charles and his wife, Nell, a former Y-12er, are vacationing in Louisiana and she will remain there to visit her mother for a few weeks. Ray Kuhn enjoyed some Broadway shows while vacationing in New York. Warmly welcomed to the department recently was Joe Hamilton.

Visiting her parents in Centerville, Tenn., over a recent week end was Wilma Bryant, of Production Assay. Bill Haddix and his wife attended the dedication of Cumberland Gap State Park. Clogene Brown and her husband, Bill, vacationed recently at Savannah Beach, Ga.

### CHEMICAL OPERATIONS

Resting, camping out in the mountains and trying his luck in fishing mountain streams is taking up the vacation time of Jack Goldston, Beta Two. W. A. McNair visited kin folks in Florida on his time off. Charley Henderson and family are spending this week in Louisiana. Mary Scott, husband, Bill, Oak Ridge National Laboratory, and family are basking on some beach this week. H. G. Taylor and folks are on a tour of West Virginia, Pennsylvania and Washington, D. C. Laura Hawkins, her husband and her mother are visit-

Continued on Page 4

# ORGANIZATIONAL MEETINGS FOR BOWLING SET

## Sessions Slated Early In August For Four Loops

Interesting Season Predicted; 44 Teams Rolled In 1958-1959

Although timber topping by the four highly successful and popular bowling leagues of last season has only been over for a few weeks, organizational meetings for the coming season already have been set by the Recreation Department for early in August.

**Interesting Season Seen**  
All members and especially team captains of last season in the four leagues are urged to attend the meetings of their respective leagues so that plans for an interesting 1959-1960 season may be made.

All of the organizational meetings are to be held in Conference Room 222-A, Bldg. 9704-2, at 1:30 p.m. The schedule of meetings follows:

**Mixed League, Tuesday, August 4.**

**Classic League, Wednesday, August 5.**

**C League, Thursday, August 6.**

**Bush League, Friday, August 7.**

A total of 44 teams competed in the four leagues last season, with each of the circuits operating without a lost team during the entire schedule.

The largest league was the Classic, one of the oldest and fastest bowling loops in Oak Ridge. The championship in this group was taken by the Rippers, a team of veterans who have rolled together for several years. The Rippers took the title in a roll-off against the Markers, the second half of the season champions.

The C League had a membership of 12 teams with the championship last season being taken by the Sunflowers in a three-way roll-off with the Daffodils and B Shift. The popular Mixed League of men and women bowlers staged a spirited race with the crown going to the Scrappers, who beat the Clippers in a roll-off match. The Bush League was the newest circuit last season and had eight teams. The Lucky Five won the title from the Balls 'O Fire in a roll-off.

## Isham-Henck Top Harriman Round

At the end of the second round of play in the Harriman Golf League for Carbide players in that vicinity, the Isham-Henck team was in first place with a 22½ won and 5½ lost record.

League standing at the end of the second round follows:

Team	W	L
Isham-Henck	22½	5½
Hoppe-Walker	18½	9½
Ellis-Anglin	17	11
Brown-Franzreb	13½	14½
Cuneo-Grimes	12½	15½
Tilley-Evans	11	17
Warlick-Willmarth	9½	18½
Thomas-Hamill	7½	20½

## Y-12ers May Obtain Lessons In Golf

Y-12ers interested in taking a series of golf lessons for themselves or members of their families now may enroll in classes being held at the Oak Ridge Golf and Country Club. The classes are conducted on Tuesdays and Thursdays at 6 p.m. by Professional Rabbitt Grove. Instruction is given in both rudiments and other phases of the game. Any Y-12er wanting further information on the course may obtain it from the Y-12 Recreation Office, Room 265, Bldg. 9704-2, plant phone 7100.

## Reactors Capture First Half Crown

Whiz Kids Are Downed By Margin Of 3 To 2

In a thrilling finish to the first half of the season in the Y-12 Plant Softball League, the Reactors nosed out the Whiz Kids for the title in a playoff game by the score of 3 to 2. The regular schedule found the two teams tied at eight wins and two losses each so the extra game had to be played to determine the titlist.

**Reactors Had Jinx On Kids**

The only losses by the Whiz Kids throughout the first half of the season were to the Reactors and the Reactors lost to the Atoms and Sportsmen.

In the title game the Whiz Kids outthit their opponents by six to four, but bunched blows off Hayes brought the win to the Reactors. Hayes whiffed seven batters. Hardin's home for the Reactors was an important whack. Chandler held the Kids in check with the exception of the second inning, when Matlock blasted a homer for the losers' only tally. Chandler fanned five.

**Hawkins Hurlled One-Hitter**

As the second half of the season got underway the Reactors continued their jinx over the Whizzers with a 3 to 0 triumph, as Hawkins hurled a one-hitter at the Kids. Peters got the lone bingle, a single. Cavosie banged a homer for the Reactors.

The Atoms took a forfeit decision from the Slow Pokes Saturday.

Line scores of both games and league standing at the end of the first half of the season follows:

CHAMPIONSHIP GAME				
Team	R	H	E	
Reactors	010	002	0-3	4 1
Whiz Kids	011	000	0-2	6 0

Batteries: Reactors, Chandler and Smith. Whiz Kids, Hayes and J. Collins.

FIRST GAME SECOND HALF				
Team	R	H	E	
Reactors	200	001	0-3	7 2
Whiz Kids	000	000	0-0	1 1

Batteries: Reactors, Hawkins and Smith. Whiz Kids, Matlock and J. Collins.

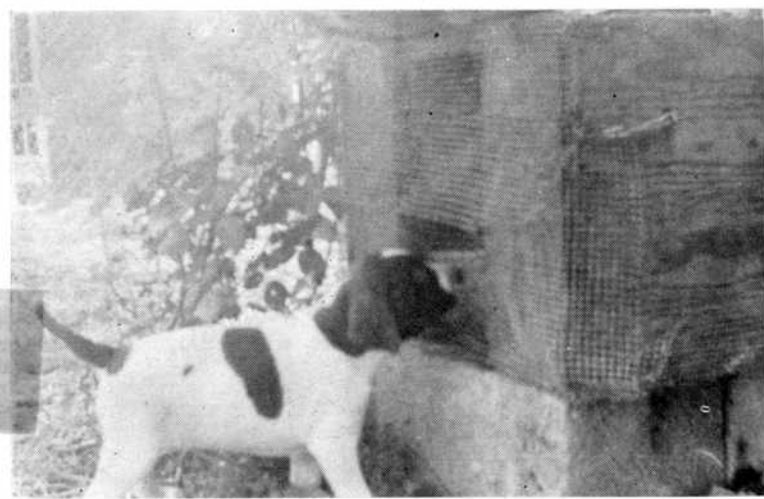

LEAGUE STANDING FIRST HALF				
Team	W	L		
Reactors	9	3		
Whiz Kids	8	2		
Sportsmen	6	4		
Atoms	6	4		
Slow Pokes	2	8		

## Clabough-Spradlin Lead In Lenoir City

E. K. Clabough and Charley Spradlin held a slim lead in the Lenoir City Golf League for Y-12ers after play for the week of July 13, being just one-half point ahead of E. N. Rogers and J. C. Thompson. Clabough-Spradlin whitewashed Tom Harris and Tom Verner for four points and Rogers-Thompson duplicated over Walt Simmons and Mac Wright through a forfeit. Another shutout was posted by S. D. Peters and Paul Arrowood over E. S. Hardy and C. E. "Fuzz" Harris. L. C. Watson and W. C. Collins took three and one-half points from Frank Kennedy and Charley Beckett, first half of the season winners; and W. M. James and A. E. Perry topped H. Houston and W. Rutherford by the same margin.

Kennedy again had low scratch score of 36, cut to 32 with handicap. Other low scorers were Collins 41-30, Clabough 41-35 and C. E. Harris 43-37.

League standing follows:				
Team	W	L		
Clabough-Spradlin	13½	2½		
Rogers-Thompson	13	3		
Peters-Arrowood	10	6		
James-Perry	9½	6½		
Simmons-Wright	7½	8½		
Watson-Collins	7½	8½		
T. Harris-Verner	6½	9½		
Kennedy-Beckett	5	11		
Houston-Rutherford	4½	11½		
Hardy-C. E. Harris	3	13		

KNOWN AS THE "QUAIL KING" of the Guard Department is Guard T. J. Bush. Shown above is his latest prize bird dog—just four weeks old. The pup's father is 1957 National Champion Wayriel Alleghany Sport and his mother is Tyoolena Jane. Confined in the coop at right is a quail and the young dog is already showing good pointing form, even at his early age.

## Fourth Y-12 Golf Tourney Set Saturday For Sporty And Hilly Gatlinburg Course

Around 125 hardy mountain-climbing Y-12 golfers will journey over to the Gatlinburg Country Club on Saturday of this week, July 25, to compete in the fourth Y-12 golf tournament of the season. The sporty and hilly course is one of the most beautiful in the country and many of the Y-12 golfers plan to take their families along for a week end in the Smokies.

**Morristown Is Next**

Meanwhile, it was announced by the Recreation Department that the fifth plant tournament of the season has been scheduled for the Morristown Golf and Country Club on Saturday, August 15. Complete details of this event will be announced in The Bulletin next week. The Morristown tourney will be the final plant tournament of the season for Y-12ers.

In the Gatlinburg competition, play will start at 7 a.m. The usual Y-12 tournament rules will prevail and the same list of prizes of golf balls to winners in four divisions will be offered.

**All-Carbide In August**

The annual All-Carbide golf tournament will be held some time the latter part of August. Recreation Supervisors from Y-12, Oak Ridge National Laboratory and the Oak Ridge Gaseous Diffusion Plant will meet soon to work out details and dates for this big event.

## 'Shoe Loop Lead In Two-Way Tie

After matches of the week ending July 14 two teams were tied for the top rung Dunlap-Stanley defeated Greene-Hartledge two straight games for three points and Kendig-Coley grabbed a similar decision from Raper-Tripp, Tiller-Petty took two out of three points from Beckett-Smith and Freeman-Martin got a forfeit from Berry-Kaylor.

League standing follows:

Team	W	L
Dunlap-Stanley	9	0
Kendig-Coley	9	0
Beckett-Smith	7	2
Greene-Hartledge	3	6
Raper-Tripp	3	6
Freeman-Martin	3	6
Tiller-Petty	2	7
Berry-Kaylor	0	9

## C Shifters To Have Picnic At Norris Park On July 23

A hamburger and hot dog dinner will feature a picnic by Y-12ers on the C Shift next Thursday afternoon, July 23. The outing will be held at Norris Park, near the dam, beginning at 2 o'clock with "chow time" starting at 4 p.m.

The cooking will be handled by the C Shift recreation committee, headed by J. L. Morgan, Electrical Maintenance. There will be games for youngsters and grown-ups alike during the afternoon.

## Shatley-Kahley Top Blue League Lead

The Shatley-Kahley combine managed an even break with Orrison-Thomson in the Blue League of Y-12 golfers at Oak Ridge July 8 and held on to first place by the narrow margin of one point over Smith-Bartholomew, who licked Gregory-Dehoney by four. Pletz-Roberts beat Everitt-Lockhart by the same score. Five-point triumphs were posted by Brennan-Hackett over Earley-True and Maddux-Luck over Gambill-Hamby. Wallace-Peterson played a three-point deadlock with Matthews-Stout.

The first and second place teams in the circuit are slated to clash in the second to last match of the schedule in what could be the decisive scrap of the season.

In the July 8 session Ed Gambill had the low scratch score of 41 and Bill Hackett's 33 handicap tally also was low.

League standing follows:

Team	W	L

## Y-12er's Son Blasts Ball Out Of Park

Clouting a baseball out of Ridgeview baseball park in Oak Ridge is considered quite a feat for a professional batsman — so when an 18-year-old American Legion Junior Leaguer performs the feat it is worthy of attention. The youth who socked the long ball—the only one of its kind this season — is Wayne Hilbert, son of H. G. Hilbert, of the Y-12 Beta Two Department.

Young Hilbert plays with the Kingston Legion junior team and their opponents on July 6 when the Y-12er's son propelled his prodigious poke was the Oak Ridge Kiwanis Club entry in the league composed of teams from Oak Ridge and Kingston.

Modern man—one who drives a mortgaged automobile over a bond - financed super - highway with gasoline bought on a credit card.

Well, that ought to take care of things for this time.

## Y-12ers Are Making European Journey

Continued from Page 1  
on pedal extremities, Williams said before departure that he certainly was going to take along a pair of comfortable shoes—and the thought was echoed by Miss Tyer. Williams likewise is looking forward to all the sightseeing—and also to the exotic foods in Europe. He also plans further comfort, as far as possible, by wearing sports clothes during most of the tour.

Noting that the Folies Bergeres in Paris is on the itinerary, both Y-12ers said they definitely intended to see the famous revue.

### Tour Starts At Amsterdam

The Friendship Tour really gets underway at Amsterdam when the party will begin its journey by motorbus, which will take them on the long trip that ends in Paris. From there they will fly to London for the return trip to the United States.

After leaving Amsterdam, the tour's first stop is at Brussels, Belgium. Then the itinerary includes Bernkastle and Heidelberg, Germany, with a visit to one of the famous student beer cellars highlighting the latter stop.

### Gondola Ride Planned

After stops at Lucerne and Innsbruck, Switzerland, the party will proceed to Venice, where the program calls for a gondola ride on the famous Grand Canal. Three nights will be spent in historic Rome and another stop will be at Florence. Then comes Nice, with a fling at the famed casino at Monte Carlo. In addition to the Folies Bergeres at Paris the party will visit the beautiful and famed Palace of Versailles before going on to London, where Windsor Castle will be one of the points of interest to see during a two-day stay.

## Deer Hunt Forms Now Available

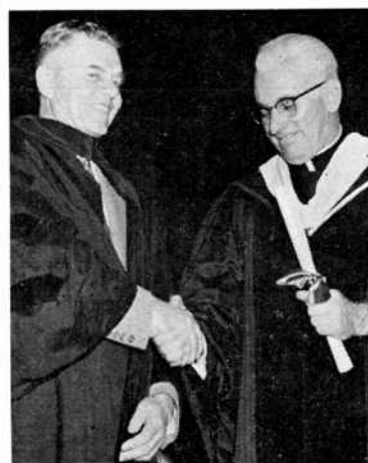

Deer hunt application forms are now available for hunters wishing to participate in the drawings for a hunt spot on the following East Tennessee game management areas: Andrew Johnson, Central Peninsula, Ocoee, Prentice Cooper and Tellico, according to a statement from Charles Pierle, Lands Manager for the State Game and Fish Commission. Pierle reminds all applicants that in applying for a hunt on these quota areas all applications must be mailed to the Nashville office of the Game and Fish Commission and must be postmarked on or before September 1. Envelopes containing applications should be marked with the word HUNTS. The deer hunt application forms may be obtained from the Nashville, Knoxville or Crossville offices of the Game and Fish Commission.

In the event the quotas are exceeded on any of the above mentioned areas, public drawings for hunt positions will be held at 2 p.m., Saturday, September 26, at the following places: for the Andrew Johnson Area, the court house at Greeneville; Central Peninsula Area, the court house at Maynardville; Ocoee Area, the court house at Benton; Prentice Cooper Area, Powell's Crossroads at Whitwell; and the Tellico Area, the public square at Tellico Plains.

Applicants desiring to hunt together must submit individual applications in the same envelope and state their wishes, otherwise they will be considered as single applications and cannot be drawn with their party. No more than 10 applications may be grouped together, Pierle said.

### RODIE HEAD ACCOUNTANT

Alexander H. Rodie has been appointed Manager-General Accounting Department, of Union Carbide Corporation. He has been with UCC since 1920 and succeeds L. W. Watt, who is retiring after 45 years of Company Service.

**MORSE G. DIAL**, left, Chairman of the Board, Union Carbide Corporation, is shown receiving an honorary Doctor of Laws Degree at the College of the Holy Cross recently from the Very Rev. William A. Donaghy, S.J., president of Holy Cross. The citation on the degree reads in part, "... no company stands with more impressive and broad-shouldered stature than Union Carbide. The story of this massive enterprise is the pattern of all great projects—the story of America, ingenuity, technical skill, courage, and above all, leadership marked by vision. In the most important phases of the Corporation's expansion, this leadership was supplied by Morse Grant Dial."

## UCC Gives ORINS \$5,000 In Grant

Continued from Page 1  
the beginning enjoyed the wholehearted cooperation of Union Carbide Nuclear Company in the performance of its primary function as a liaison agency between universities and the Oak Ridge National Laboratory. This grant extends to the construction of our building this spirit of helpfulness and friendly support that has marked the relationship of our two organizations throughout. All of our member universities throughout the South are grateful for this helpful gift."

### DEVELOPMENT OF SCATTER GUNS RECENT INNOVATION

The development of the present-day fine scatter guns now used by the nation's sportsmen has taken place in less than 100 years. In 1870 when the first paper-shot shell appeared it wasn't long before choke barrels hit the shotgun markets. In the late 1880s Winchester perfected the first successful repeating shotgun; a lever action model in 10 and 12 gauges. By the turn of the century the scatter gunners had adopted the well-known slide action repeater; the Model 97 also manufactured by Winchester. In 1911 the Remington-Browning self loader fast became the choice of the nation's gunners.

THIS FINE MESS OF ATLANTIC OCEAN FISH fell to the lure of cut bait on the end of lines wielded by Oak Ridge Carbide anglers and their wives, with two of the families being Y-12ers vacationing at Daytona Beach. At left are Frank Henson, Electrical Maintenance, Mrs. Henson and their two boys. Then in the center are Geraldine Watson, of the Y-12 Stores Department, and her husband, Lewis, General Machine Shop. At right are Harold Cornett, Oak Ridge Gaseous Diffusion Plant, and his wife. The catch included king mackerel, red snapper and a couple of big grouper.

## Robert C. Olson Gets Colorado UCNC Post

Continued from Page 1  
the state of Illinois Bureau of Materials, Olson joined the University of Chicago staff on atomic energy activities, doing work in the metallurgical laboratory at that institution in connection with the Hanford, Wash., project.

### Joined Carbide In 1945

He left there in 1945 to join Carbide at the ORGDP Plant in Oak Ridge, remaining there until his transfer to the Y-12 Plant.

During his comparatively brief career as a Y-12er, Bob Olson took an active part in several extra-curricular activities. In 1958 he was plant campaign chairman for the UCNC Central Fund Campaign, the Company fund-raising project for support of worthy welfare and health agencies in Anderson, Knox and other nearby counties.

### Active In Golf, Bowling

In the recreational line, he has played golf and bowled in plant leagues. In addition he is a top bridge player and also has played trumpet in the Oak Ridge Symphony Orchestra.

"It has been an interesting period of work here in Y-12," he said last week on the eve of his departure, "and I certainly am going to miss Y-12 people and Oak Ridge activities."

In reply to this—there are many Y-12ers who will miss Bob Olson and whose wishes for a long and happy future will reach from the Y-12 Plant to the mines and mills of Colorado.

## Former Y-12er Is Buried In Nashville; Died July 9

Following funeral services in Oak Ridge on Saturday, July 11, John G. Walpool, former foreman in the TW Shop, was buried in Nashville. The former Y-12er died Thursday, July 9, in St. Charles, Mo., while on a vacation trip visiting his daughter, Mrs. Mark Franklin. He was 47 years old.

His death came unexpectedly after a sudden illness and was a shock to his fellow employees and friends in the Y-12 Plant. He came to work in Y-12 in 1948.

Survivors include his wife, Mrs. Anna Josephine Walpool, a sister, Mrs. Ruth Lamberson, Nashville; and mother, Mrs. Effie Mae Walpool, also of Nashville; in addition to Mrs. Franklin.

### BRANTLEY JOINS UCNC

J. Calvin Brantley has been appointed assistant director of research for Union Carbide Nuclear Company. He joined Union Carbide Corporation in 1949 and has been assistant manager of research for the Linde Company's Tonawanda, N. Y. Laboratories since 1956.
